DEFENSE RAISES DELICATE POINT

VITAL QUESTION BEFORE COURT

Can It Take Cognition of Sulzer's
Election Expense Statement?

POINT RAISED BY THE DEFENSE

Content That the Governor Can Not
Be Questioned Regarding His Acts
Before He Assumed Office—If Deter-
mined in Favor of Sulzer the
Impeachment Trial Would End Then
and There—Late Developments.

Athens, N. Y., Sept. 22.—The vital
preliminary question which must be
determined by the high court of im-
peachment tomorrow or Wednesday
before the taking of testimony can
commence is whether the court can
take cognizance of the truth or falsity
of Governor Sulzer's sworn election
expense statement.

This point is to be raised by D.
Cady Herrick and Austin G. Fox as
soon as the court dispenses with the
contention of Louis Marshall that the
assembly could not impeach Governor
Sulzer at a special session unless the
subject of impeachment was referred
to the legislature by the governor for
consideration.

The general anticipation is that the
court of impeachment will endorse the
view expressed by Judge Harbock in
his recent ruling on the Robin pardon
case. Then will come the second
point of Governor Sulzer's counsel that
articles 1, 2, and 6 of the impeach-
ment should be stricken out upon the
ground that they refer to the govern-
or's receipt and expenditure of cam-
paign contributions before Jan. 1,
when he assumed the office of govern-
or. They insist that Governor Sulzer
cannot be questioned regarding acts
before he assumed office. If the court
should determine this question in
favor of Governor Sulzer, the impeach-
ment trial would end then and there,
as the other five articles trail along
after those most important ones and
would have no substance if the court
can not pass upon the truth or falsity
of Governor Sulzer's sworn statement
of election expenses filed with the
secretary of state.

Senator Brackett and counsel for the
assembly managers, who are prosecut-
ing the impeachment articles, have
prepared an elaborate brief which re-
views 77 impeachments under the fed-
eral and state governments since the
establishment of constitutions in na-
tion and state for the guidance of the
court and Senator Brackett is to argue
against the contention of the Sulzer
lawyers that only acts committed by
Governor Sulzer since Jan. 1 can be
regarded in impeachment articles.
Senator Brackett was so confident
that the governor's alleged misuse of
campaign funds will be considered by
the court that the managers' counsel
have gone ahead and prepared the
evidence in affidavit form and have it
in clean legal shape.

GOVERNOR MAY NOT LIKE EITHER COX'S ATTITUDE

Belief Growing That Governor Will
Oppose Wet and Dry Proposals.
Columbus, O., Sept. 22.—The fight
over the constitutional amendments
will be more bitter in a majority of
localities than will be the fights for
mayorality honors. As usual, the chief
interest is centered in the wet and
dry matters. The wets have initiated
and referred a bill to reduce the size
of the legislature, while the dries are
campaigning for a measure to pre-
vent the shipment of liquor into the
arid sections of the state. On these
two measures the greatest fight
Governor Cox will come out in op-
position to both.

WILL SHUT OFF SELF MURDER

FEAR SCHMIDT WILL ATTEMPT SUICIDE

Allenist Examines the Slayer of Anna Aumuller.

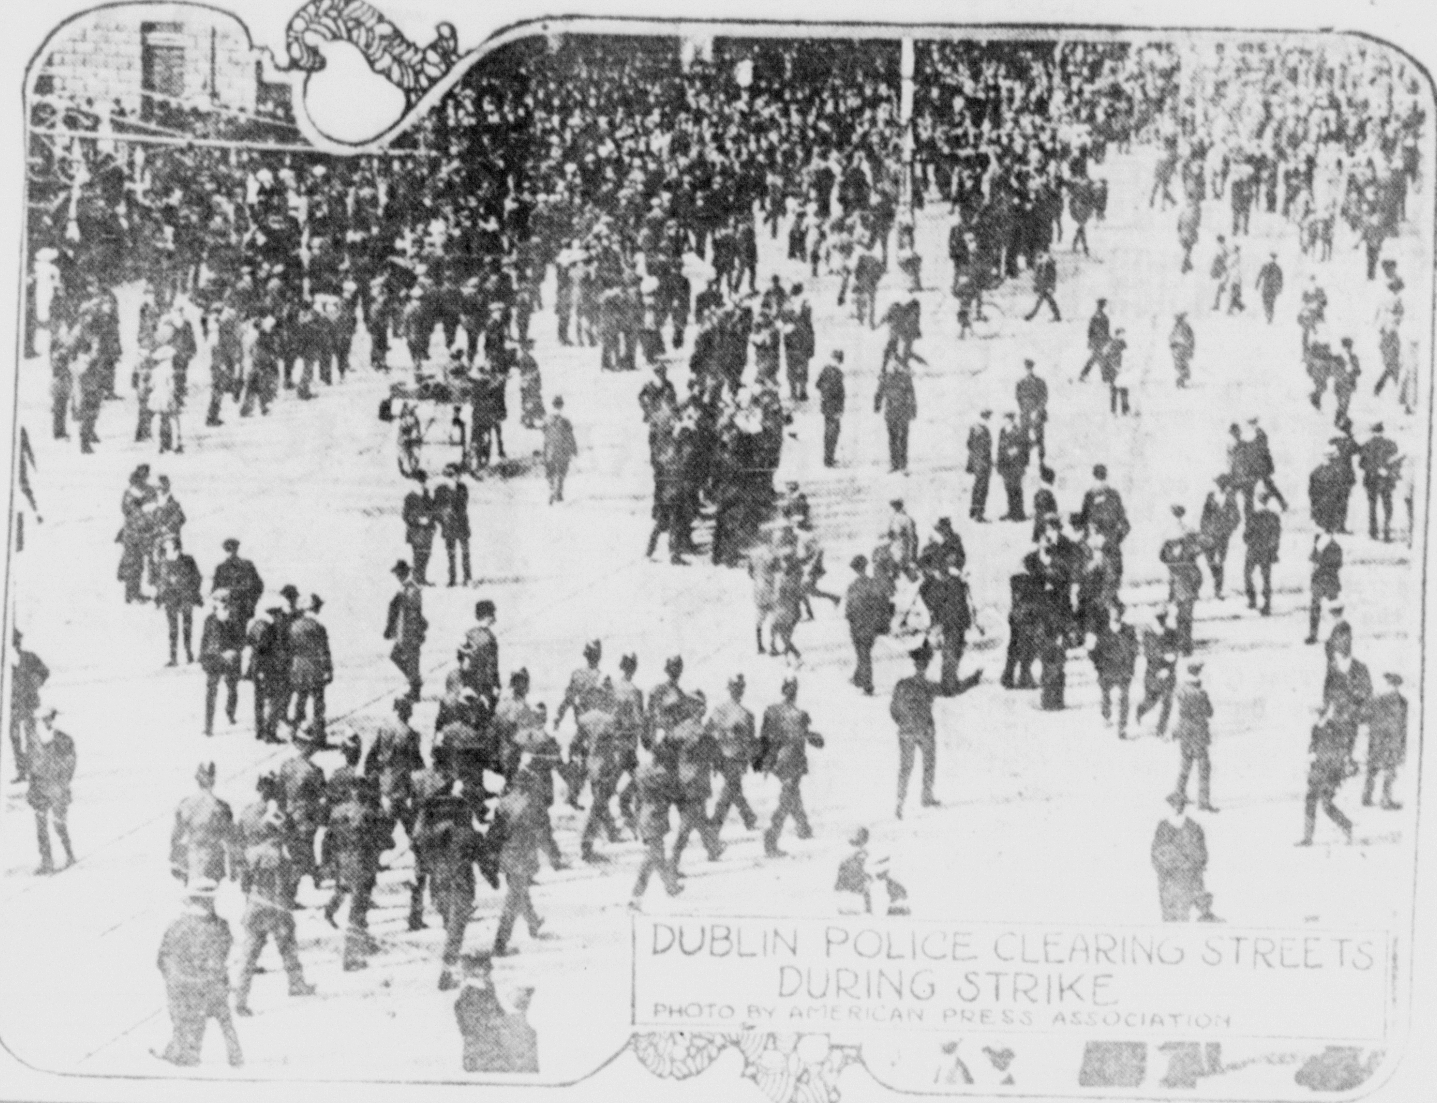

New York, Sept. 22.—Hans Schmidt,
who killed Anna Aumuller, the rec-
tory maid, was examined as to his
sanity in the Tombs by Dr. Gustav
Scholer, a former coroner, who is a
member of the board of manager of
the state insane asylum on Ward's
Island. He did not know until near
the close of an hour's talk that his
visitor was a physician interested in his
defense, and then, according to his
lawyer, Alphonse G. Koelble, Schmidt
shrugged his shoulders and said:
"Why bother yourself about me so
much? Go ahead and expedite this
thing. I'm going to the electric chair."

Dr. Scholer refused to discuss his
conclusions concerning the man's men-
tal condition.
Mr. Koelble declared that he was
convinced more than ever after his
talks with the alienist for the defense
that Schmidt was insane. "Schmidt,"
he said, "has an absolute contempt
for life. He said to me, 'The quicker
I am united with God and with Anna
the better it will be for me.' I advised
one of the keepers not to take any
chances at all with Schmidt. There
have been four suicides and two at-
tempted suicides in his family in the
past five years and there's no telling
what he may try to do."

BUBLIN RIOTS SO SERIOUS POLICE ARE FORCED TO CLUB TO KILL; FURTHER TROUBLE FEARED

Dublin, Sept. 22.—Riots here were
so serious that the police redoubled
their efforts to keep the crowds off
the streets. In the first serious riot
nearly 500 were hurt and two were
killed. Other outbreaks occurred, spread.

Cortege, Headed by a Regiment of
Police, Moves from the City Hall to

Where Interment is Made in Green-
wood Cemetery—Many Thousands
View the Remains.

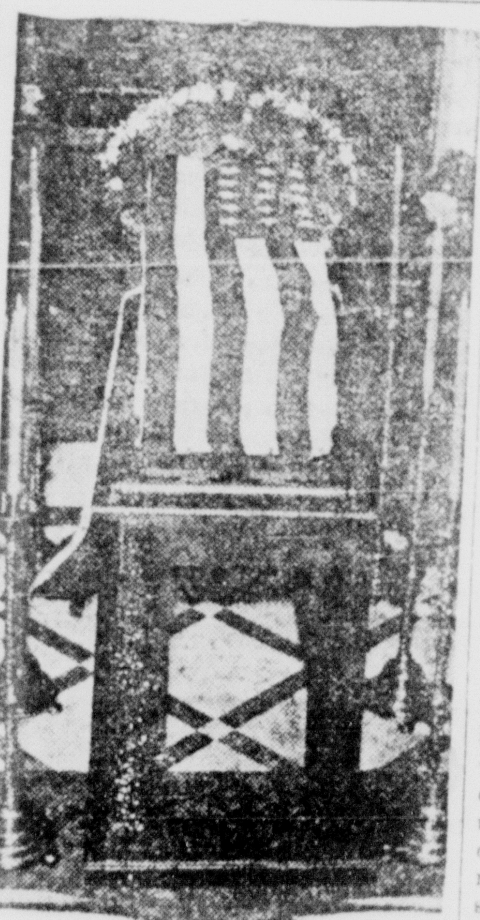

New York, Sept. 22.—Public funeral
services for Mayor William J. Gaynor
were held today at Trinity church.
Bishop Greer officiating. Services for
the overflow crowd were held at St.
Paul's chapel, a few blocks distant.
Bishop Greer in his sermon pointed
out the many lovable qualities of the
deceased.

The great cortege moved from the
city hall down Broadway to Trinity
church. A regiment of police led the
procession, in which were 200 firemen
and representatives from every city
department. From Trinity church the
procession moved to Brooklyn bridge,
thence to Greenwood cemetery, the
place of interment. The line of march
was jammed with spectators.

Sunday thousands of persons filed
through the flower-filled rotunda of the
city hall and past the body of Mayor
Gaynor lying in state. Unmindful of
a heavy downpour of rain the people
came in a continuous stream, silently
to find places in the long, slow-moving
procession that extended for half a
mile along lower Broadway and
through City Hall park to the city
hall. It was New York's spontaneous
tribute to its dead mayor.

In the long line were street cleaners
in their white uniforms, policemen,
firemen and men high in the official
life of the city and state, but for the
most part the procession was made up
from the great so-called middle class.
About a fifth of the crowd were
women and children and many of the
latter carried small wreaths or bou-
quets of flowers, which they placed
near the coffin.

The rotunda of the city hall was
almost filled with floral offerings from
individuals and from all parts of the
United States and from foreign coun-
tries. One of these was sent by the
lord mayor of Liverpool, who was
represented at the funeral by Max
Munro, a former mayor of the Eng-
lish city.

At Grace Methodist church Rev. C.
C. Reiser, the pastor, read a letter
from former President Taft, in which
he said: "I count it a great honor
that Mayor Gaynor regarded me as his
friend. There was no place in the
nation, state or city, judicial, execu-
tive or legislative, which his qualities
did not fit him admirably to fill.
Everything he did and said had the
flavor of an attractive, aggressive and
broadly liberal personality that will be
and ought to be long remembered."

financial loss is the supposed cause.

STRIKERS CLASH WITH THE POLICE

Rioting Attends Parade of Dublin
Transport Workers.

Dublin, Sept. 22.—There was an
other fierce riot here as a result of
which seven policemen and six civil-
ians are in various hospitals and many
others were treated and sent to their
homes. A procession of about 1000
formed at Liberty Hall, the head-
quarters of the transport workers' union,
and started to parade. Shouting,
cheering and jeering the marchers
moved along Grafton street, where
several tram cars were obliged to
halt because of the vast throng which
had gathered. Suddenly and without
any warning a stone crashed through
the glass window of the first car and
then a shower of stones followed. The
passengers in the cars cowered below
the seats and thus escaped serious
injuries. The mob then began to at-
tack the police. The batons of the
constables were swinging in a mo-
ment, while missiles of all sorts were
hurled. The mob advanced up the
side streets from which it rained
stones, bottles and other articles on
the police.

The rioting rapidly spread. Police
reserves appeared and dashed among
the rioters, amid screams and curses.
The mob of men, women and children
on the occasion of these dashes would
break and scatter and then reform
elsewhere. The melee went on in this
fashion in several streets. Hundreds
of the rioters were knocked down by
clubs of the foot constables and the
flat ends of the swords of the mounted
men.

AUTO HITS WOMAN

Lancaster, O., Sept. 22.—Mrs. Ella
Landerfelt, 52, of this city was prob-
ably fatally injured in an automobile
accident one mile south of Lancaster.
She was standing by the roadside
when the automobile, owned by
George Bumkardner of Lancaster and
driven by his fiancé, Miss Maud
Edwards, of Sugar Grove, who sud-
denly lost control of it, crashed into
the fence, pinning Mrs. Landerfelt be-
tween the fence and it, fracturing her
skull.

STRANGLED GIRL IN A CEMETERY

Schmidt Case Prompts Murderer

KEPT HIS SECRET FOUR YEARS

Self-Accused Slayer of a Woman a
Man of Education and Son of a
Wealthy Land Owner—Twice At-
tempts to Commit Suicide in His
Cell—Tells Complete Story of His
Fiendish Crime.

Philadelphia, Sept. 22.—Jacob Wolf-
sohn, confessed murderer of Anna
Catherine Schumacher four years ago
in Holy Sepulcher cemetery, Roches-
ter, N. Y., was brought to a realiza-
tion of his crime by reading of the
atrocities committed in New York by
murderer Hans Schmidt. This was
his first admission to Detective
C. Cameron. According to the con-
fession Wolfsohn strangled Miss Schu-
macher in August, 1909, while she was
placing flowers on the graves of her
father and sister and concealed the
body in the woods and then returned
at night and buried it in a hollow
grave.

For four years he kept his secret.
But his conscience was not thoroughly
dead, down deep it was pulsating
and the Schmidt murder was the lash
that brought it back to a troubling
activity.

Wolfsohn was regarded here as a
man of education. He declares his
father was a wealthy land owner, and
that his brother, Dr. Leopold Wolf-
sohn, was noted throughout Russia as
a specialist on nervous diseases.

Wolfsohn said he passed the cem-
etery every day on his way home and
several times noticed the girl placing
flowers on a grave.

"I flirted with her and she smiled
back at me," Wolfsohn confessed, ac-
cording to the detectives. "The next
day I saw her and spoke to her. We
agreed to see each other there the
next day. She kept her appointment.
I tried to kiss her, but she resented
this and tried to run away. I grabbed
her and began choking her. She
screamed, but no one heard her, and
then I strangled her. I then attacked
her and after that dragged the body
to the woods in the cemetery. I found
a grave digger's spade and dug a hole
large enough to place the body in it."

Wolfsohn twice attempted suicide in
his cell at the City Hall. The first
time he was found strangling with a
safety pin in his throat that he had
attempted to swallow. The second
time he had evaded the watchfulness
of the turnkey, and tying his shirt,
which he had stripped into a cord,
was found with the noose tight about
his neck and his feet were bent up
under him. He was cut down in time
by Dr. Eagan, the police surgeon and
resuscitated. He was then placed in
a cell under the eye of the sergeant
in charge of the cell room and a police
detailed on duty before his door.

BANDITS SENTENCED

Bryan, O., Sept. 22.—Waiving all
right to counsel, Robert Duffey, 22, of
Buffalo; Arthur Groun, 20, of New
York, and William Justice, 20, of Phil-
adelphia, auto bandits, pleaded guilty
to all four indictments for robbery. On
each count Groun and Justice were
sentenced to from one to 15 years in
the Mansfield reformatory. Duffey,
who was also indicted on a charge of
shooting Sheriff Wineland with intent
to kill, was sentenced to the Ohio pen
for from one to 15 years.

IS MAKING GOOD IN NEW ENGLAND

T. E. Leland, Former Washingtonian Is Chosen to Develop Interurban Express and Freight Business in Northern New England, and Thousands of Employees Will Take Instruction From Him.

Another Washington boy who has come to the front is T. E. Leland, or Ed Leland as he is known to his many friends in this vicinity. A few months ago, Mr. Leland was called to Boston by the Bay State Electric company of that city, one of the largest interurban concerns in the United States. The Bay State people had been looking for months for the right man to take charge of the freight and express department, and had been scouring the country. Out of several score of names considered for the position that of Mr. Leland, then with the Kansas City Street Railway Company, was given the preference.

This was last spring. In the few months of his work in Boston Mr. Leland has made good in splendid shape, and now has charge of one of the most important departments of the company, and lately has been selected as the man best fitted to open up the interurban express and freight business in northern New England, which as yet has been entirely undeveloped. Such is the confidence of the company in his ability that a general notice was issued to all employees announcing Mr. Leland as special agent, and ordering them to obey any and all instructions he might issue.

GOOD ROADS MAN DOWN IN KENTUCKY

J. E. Kavanaugh, the "good roads" man who passed through this county on foot some ten days ago, walking from Columbus to New Orleans in the interest of better roads, is now some 50 miles out of Georgetown, Ky., and has had a very eventful journey, according to a communication just received from him.

Between Cincinnati and Georgetown he found only 14 miles of fairly good roads in a distance of 80 miles. "People are cutting tobacco, farmers all want good roads, and in fact everybody wants them," says Kavanaugh in his letter.

COLDEST SEPTEMBER DAY SINCE 1871

Sunday was the coldest September day since 1871, according to the weather man, and the cool snap is expected to last several days.

Those who had neglected to place their stoves or furnaces in readiness for winter, or had failed to lay in a supply of coal, suffered from the unseasonably cold weather all day Sunday and Sunday night.

Monday morning a light frost had fallen, and in many places it nipped the vegetation very badly.

Other points were less fortunate than most of this county, and killing frost fell in abundance.

At Harrison, O., Sunday night about 9:15 o'clock snow fell for half an hour, forming a white blanket over the green vegetation. The temperature at that time was about 45 degrees.

POST INTRODUCES A PENSION BILL

Congressman J. D. Post, of this city has introduced a new bill in Congress to amend an act of April, 1908, increasing the pension of widows and minor children of the soldiers of the Civil War and war with Mexico.

Congressman Post's new bill asks that the former act be amended to read:

"Sec. 2. That if any officer or enlisted man who served ninety days or more in the Army or Navy of the United States during the late Civil War, and who has been honorably discharged therefrom, has died, or shall hereafter die leaving a widow, such widow shall, upon due proof of her husband's death, without proving his death to be the result of his Army or Navy service, be placed on the pension roll from the date of the filing of her application therefor under this Act at the rate of \$12 per month during her widowhood. Provided, That said widow shall have married said soldier or sailor at least fifteen years prior to his death; and the benefits of this section shall include those widows whose husbands if living would have a pensionable status under the joint resolutions of February fifteenth, eighteen hundred and ninety-five, July first, nineteen hundred and two, and June twenty-eighth, nineteen hundred and six."

NEW DEPARTMENT SELF SUSTAINING

Columbus, O., Sept. 22.—Ohio has closed its doors to unscrupulous dealers in fraudulent securities.

The men who have induced Ohioans in the past into making unprofitable investments by alluring, but false descriptions of oil and gas wells, alleged gold, silver and copper mines, worthless bonds, stocks and other securities will no longer be permitted to ply that dishonest vocation in this state without interference by public officials.

The protection so long needed but never given until now is afforded by the establishment of a department, in which every form of investment will be scrutinized. The spurious ones will be barred from the state, the genuine will be permitted on the markets.

The new service to be rendered the

people of the state under the Blue Sky law designed to stop the defrauding of the people by selling them worthless securities and real estate, will not cost the state or the taxpayers one penny. License fees required of dealers will make the department self-supporting. This is in line with Governor Cox's policy of putting on a self-supporting basis all state regulatory departments created for the protection of the public.

James Mathew will have a car of nice peaches at the B. & O. depot today and tomorrow.

A MILLINERY DISPLAY WORTH WHILE

Our Opening Begins Wednesday, Sept. 24th and continues the Balance of the Week.

MRS. BYBEE LEADING MILLINER

In Social Circles

Surprising and interesting to Washington circles comes the news late this afternoon that Mr. Forest Lane and Miss Florence Loofbourrow were married today in Columbus at the home of the bride's uncle, Mr. O. W. Loofbourrow.

The bride has been visiting her uncle for the past week. Mr. Lane taking Rev. Frederick E. Ross, of Grace church to the capital city Monday and the nuptial knot being tied at three o'clock. Rev. Ross performed an impressive ring ceremony with only the immediate relatives present.

The bride, who is a beautiful girl, of the blonde type and as winsome as she is fair, wore an accordeon plaited gown of white crepe meteor, with trimmings of princess lace and chiffon.

Mr. Allen Rankin played the wedding marches.

After a short wedding trip, Mr. and Mrs. Lane will go to housekeeping in one of Mr. Frank Flee's new modern homes in Millwood.

The bridegroom is one of the most popular and successful salesmen of the Dahl-Millikan Grocery Co., and both he and his young bride have the best wishes of a host of friends.

Fifteen of the younger society girls were charmingly entertained Saturday afternoon by Miss Louise Ballard, who leaves in a few days for Albany, N. Y., to enter the Albany School of Nursing.

Fall decorations of golden rod and asters added grace to the beautiful home and a dainty collation was served over the fancy work.

Miss Evelyn Ross and Miss Regina McDonald added delightful piano and vocal numbers to the afternoon's pleasure.

Assisting in the hospitalities were Mrs. Chas. Ballard and daughter, Miss Elizabeth, Mrs. Ellis Daugherty and Miss Marie Hegler.

Miss Louise Weaver gave an informal, but much enjoyed little supper last evening in farewell compliment to Miss Louise Ballard. The additional guests were Misses Dorothy Smith, Mary Craig, Mina Rowe and Grove.

Misses Melba and Geraldine McCoy delightfully entertained the Good Hope club Thursday afternoon from 2 until 5 in honor of Miss Melba's 11th birthday. She received a number of beautiful gifts. Those present were Esta Goldren, Eva Culy, Mary

Helen Smalley, Margaret Stemler, Leila Mae Murry, Lucile Canter, Moselle Taylor, Jannette Walker, Grace and Florence Smalley, Doris and Helen Kife.

Refreshments were served by Mrs. R. McCoy and Miss Della, Mrs. Dr. Boyd and Mrs. H. C. Smalley.

All departed wishing Miss Melba many future happy birthdays.

Ten little girls of Miss Mary DeWees' Sunday School class, of the First Baptist church, were inducted to their teacher for a delightful party Saturday afternoon.

Each little girl was presented with a doll and there was great fun in the dressing of them. Then there was an animal cracker hunt, in which Margaret Crane won the prize.

A delicious luncheon was served, Mrs. Tom DeWees, Misses Mabel Briggs and Sarah DeWees assisting the hostess.

The girls present were: Clara and Louise Buckley, May and Pauline West, Zoe Burnett, Winifred and Elizabeth Hicks, Marjorie Evans, Katharine Snider and Margaret Crane.

Washington friends have received invitations from Judge and Mrs. Joseph Hidy for the marriage of their daughter, Bess, to Dr. Harry David Rand, of Painesville, O.

The marriage takes place on the evening of October 7th, in the Euclid Avenue Christian church, of Cleveland, and will be followed by a large reception at the residence.

Mr. and Mrs. P. P. Ortman extended the hospitality of their handsome new home on Paint street Sunday at an Ortman reunion, in the nature of a house warming celebration.

An elaborate dinner was served and after it Mr. and Mrs. M. L. Holohan and Mrs. M. C. Ortman entertained the guests with music.

Before the party of twenty-seven broke up, Mr. Delbert Hays took a photograph.

The occasion was one of exceptional pleasure and the new home elicited many compliments.

Those present were Mr. and Mrs. L. Johnson, of Columbus; Mr. and Mrs. Chas. Ortman, Selden; Mr. and Mrs. Oscar Ortman, daughters, Carrie, Lillian and Mary, and son, George, of Staunton; Mr. and Mrs. Enos Ortman, Mr. and Mrs. George Ortman and son, Albert, Mr. and Mrs. M. C. Ortman, Mrs. Samantha Ortman, son,

Curtis, Mr. and Mrs. Arthur Grim, daughter, Mildred, and son, Gordon, Mr. and Mrs. M. L. Holohan.

Mr. John Arahood, son of Mrs. Ellen Arahood, and Miss Anna Slavens, daughter of Mrs. Jennie Fullerton, were married Saturday evening at the Christian parsonage by Rev. Hostetter. They will make their home with the bride's mother, on North street.

NOTICE

The Woman's Guild of the Presbyterian church will resume their work on Wednesday, September 24th at 2 o'clock, with a Kensington and business meeting at the residence of Mrs. George Jackson. All the ladies are cordially invited.

When Lablache, the famous operatic singer, was presented to Queen Victoria, her majesty, who had heard of the artist's hobby, asked if it was true that he had a large collection of snuffboxes. He replied that it was correct. He had one for every day in the year—365. "Nevertheless your collection is not quite complete," was the queen's response. "Here is another for leap year."—Pearson's Weekly.

Censoring the "Movie" Films

The State Board created for the purpose of censoring moving pictures films has begun the actual work of looking critically and authoritatively at the films which it is proposed to exhibit in the hundreds and hundreds of moving picture theaters in Ohio.

No new department of the state government has been created in years, and no old department either for that matter, has greater possibilities for good than this same Board of Censors.

Hereafter before any one is allowed to exhibit in public in this state a moving picture film, that film must have been approved by the Board of Censors.

The people of the state could not fail to observe the phenomenal growth in popularity which the "movies" have enjoyed. There is not a city of any considerable size, which does not contain scores of moving picture shows and there is scarce a hamlet in this section of the land, worthy of the name which does not contain one or more. Everywhere the "movies" are popular and the business of exhibiting, as well as the manufacturing, the films has proved to be immensely profitable.

The moving picture business has literally "sprung" into popularity in an incredibly short time.

It is a new business growing out of a new amusement which has proved to be a big winner.

The business of exhibiting the pictures has up to this time, required but little capital, no especial skill and very little hard work and a very short period of working hours. These facts taken in consideration with the big profits which the business yields it is not strange that men morally unfit to judge of what is good and what is harmful to the public morals should seek to operate a "movie".

There are many men engaged in the film business either as manufacturers or exhibitors who care for nothing but the "come easy" receipts at the door.

With the popularity of the picture film has come the danger of ill effects on the youth of the country by exhibiting to their gaze, the immoral and the criminal, the lionizing of criminals and glimpses of vicious life which the better people do not want to see and the evilly inclined should not be permitted to see.

In cities like Washington, there is not the need for censorship that exists in many hundreds of communities made up of a different type of people. Moving picture theaters in places like Washington do not furnish the attractive opportunity to the irresponsible exhibitor that many other places furnish.

The Board of Censors is a new department. The evil which it is intended to reach is a new evil which requires the attention of the authorities. That the problem of so censoring the picture film will be conducted in a way which will prevent any spread of evil influence and put the "movies" in a position where they will advance good morals rather than the opposite, is evidenced by the rules which the board has announced. The new board will place its approval only on those pictures which are clean and healthy and free of evil influence. No film will be permitted to be exhibited which depicts murder, suicide, deeds of violence, robbery, immorality, gambling, the use of liquor or affairs of a licentious nature.

It is a move in the right direction and high time it was made. Police of cities have been able to trace in many cases, the incentive for crimes directly to some immoral picture show.

Nothing exerts a greater influence on the young mind than pictures and that tremendous influence of the "movies" should be exerted for good and not for evil.

No step capable of more real good has been taken by the people in years than to provide a Board of Censorship for the picture films.

By JOSEPH BUCKLIN BISHOP, Secretary of the Isthmian Canal Commission

THE great American public must NOT LET THE STORIES OF SLIDES IN THE CULEBRA CUT FRIGHTEN THEM. The slides will never hamper navigation in the cut. We have a channel three hundred feet wide through the cut, and if the dirt flooded in one hundred feet on each side we would still have a channel big enough for the biggest warship with a depth of forty-five feet.

Our dredging equipment is so good now, with the addition of two of the biggest dipper dredges in the world, that we could KEEP PACE EASILY WITH THE SLIDES after the water was in the cut. The "spoil" could be quickly carried out of the cut and dumped in Gatun lake without taking the barges through the locks. There is plenty of room in Gatun lake for that sort of thing.

The completion of the canal shows what a wonderful thing electricity is in modern engineering. WITHOUT ELECTRICAL EQUIPMENT THE CANAL COULD NOT BE OPERATED. I am sure the gates could not be swung and the wonderful scheme of hidden lights could never have been designed.

DO YOU KNOW WHY THE CANAL WORK HAS BEEN SUCCESSFUL? BECAUSE PANAMA IS ABOUT THE ONE PLACE IN THE WORLD WHERE THERE IS NO POLITICS. A MAN THERE HAS TO MAKE GOOD ON HIS MERITS. PATRONAGE DOESN'T GO. YOU HAVE TO BE ON THE JOB OR THE BOSS WILL KNOW IT SOMEHOW, FROM THE LOWEST TO THE HIGHEST. IT ALL SEEMS TO PROVE THAT EVEN AN ABSOLUTE MONARCHY CAN BE A GREAT SUCCESS IF YOU HAVE THE RIGHT KIND OF A MONARCH.

THE MENTAL ATTITUDE.

Whenever you are ill at ease, or out of sorts, or blue.

There's always some one standing by who sweetly says to you,

"Why don't you get your system with complacency imbued?

What in the world's the matter with your mental attitude?"

When I am ill with anything, from headache to the gout,

When too much care or too much work has put me down and out

There's always some one near to ask, in manner mild or rude,

"Why don't you change the bias of your mental attitude?"

Now, I am fairly normal, and I can philosophize

When there's nothing much to bother and the sun shines in my skies,

I can warble a cantata with an airy interlude,

And go in for competition as to mental attitude.

But I'll bet my bottom dollar that no sort of man exists

Who will not respond to nature when fate hits him with both fists,

And the man who likes misfortune when it's got him hacked and hewed

Is the loon who's long since parted with his mental attitude.

While potatoes will not glut the market this year, consumers need not fear there will not be enough to meet demands. In a special report on the potato outlook, the department of agriculture says that while the total harvest will be less than last year, it will be sufficient. Indications are that Maine will produce the largest crop ever recorded. Michigan and the Northwest will also gather large crops. The crop is but 10 per cent below a 10 year's average.

A Census of Greenland is so rare a thing as to be of interest and the latest one, began two years ago, has its results just announced. Denmark making the count found but 13,459 population. The inhabitants are all native, excepting 384 Europeans. These are mostly laborers in a large copper mine. In a century the population has doubled and Denmark is slowly but surely giving the natives civilization.

A \$5,000,000 hotel for Milwaukee shows remarkable progress in a community that Chicago is fond of referring to as "our north shore suburb."

The saying that turkey ought to be the national bird of the U. S. is somewhat borne out by the history of the bird in America. Turkeys are connected with the Thanksgiving day because they were found by the Pilgrims in Plymouth and had part in the first Thanksgiving. In the "Perfect Description of Virginia" (1619), it is stated that the colonists have hens, turkeys, etc., without number, and specimens of the bird weighed sometimes 60 pounds. Later it tells that fat turkeys began to get tiresome as food, for they had to bread nor even salt to eat with them. Audubon, writing in 1750, describes the whole country as being thick with the flocks of wild turkeys and that even the fattest could take flight and cover long distances.

Eminent's Boss, a Jersey cow, owned in Michigan, has made what is said to be a new world's record for milk production. Her yearly record under the supervision of Michigan Agricultural college shows a production of 18,783 pounds of milk, testing 1133 pounds of butter. The former record held by the Jersey Jacoba Irene, was 17,258 pounds of milk.

Thus far the experiment Ithaca, N. Y., tried with a public market to reduce the cost of living and improving the quality of produce has been generally satisfactory to both consumers and producers. Some dealers are even making use of the market to get their stocks of goods. In one short season the market has outgrown its present area. The management is considering the extension of the market, the more permanent establishment of its equipment, storage facilities and other things, that will better serve the community by making a ready clearing house for farm products of all kinds at both wholesale and retail.

SELLS-FLOTO

It has always been a question amongst circus folks as to whether their patrons like elephants or clowns best, but no one ever questioned the public loyalty in their attitude toward the horses, for which the Sells-Floto Circus has always been noted.

In addition to the tremendous galaxy of stars owned by the circus, they have this year procured the Rhoda Royal complete troupe of high school and menage horses. Beyond question, the very best of their kind on the face of the globe.

The Royal Troupe comprises twenty-six beautiful and highly educated animals who accomplish all the numbers known in the repertoire of the high school. They appear at every performance on the hippodrome track and give an exhibition, which is not only marvelous from the educational standpoint, but such as will be received with acclaim by everyone who loves to see the horse at his best.

Such riders as Miss Rhoda Royal, Miss Maude Burbank, Miss Lucile King, Miss Irene Montgomery, Jane Marlowe, Mary Warrington, Blanche Delasen, Kathryn Wilkins, Jane York and other celebrated equestriennes will have the mounts. It is one of the strongest numbers ever introduced by a traveling organization.

The Sells-Floto Circus will appear in this city on Saturday, September 27. The price of admission remains the same as that of former years—25 cents admits to the circus proper, Menagerie and Horse Show, in its entirety.

A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

November 2, 1871.

Mr. John Wood left with us a few days since a pamphlet containing the daily journal kept by him while traveling overland from Cincinnati to California, in 1850, with Robinson and Ogil company, composed mostly of men from this place and vicinity.

It contains an account of occurrences, transactions and incidents on the route and possesses a good deal of interest, especially to a great many in this county who had relatives and friends along with the company. For sale at Dr. Harlow's drug store and R. Millikan's Book store.

An eel, weighing 3 pounds, one ounce and measuring 38 inches in length was caught in Sturgeon's mill dam last Friday by Harvey Smith. P. S. Collins has the skin stuffed and on exhibition (free) at his restaurant.

England Paid Signal Honor to William J. Gaynor, The Dead Mayor of America's Largest City.

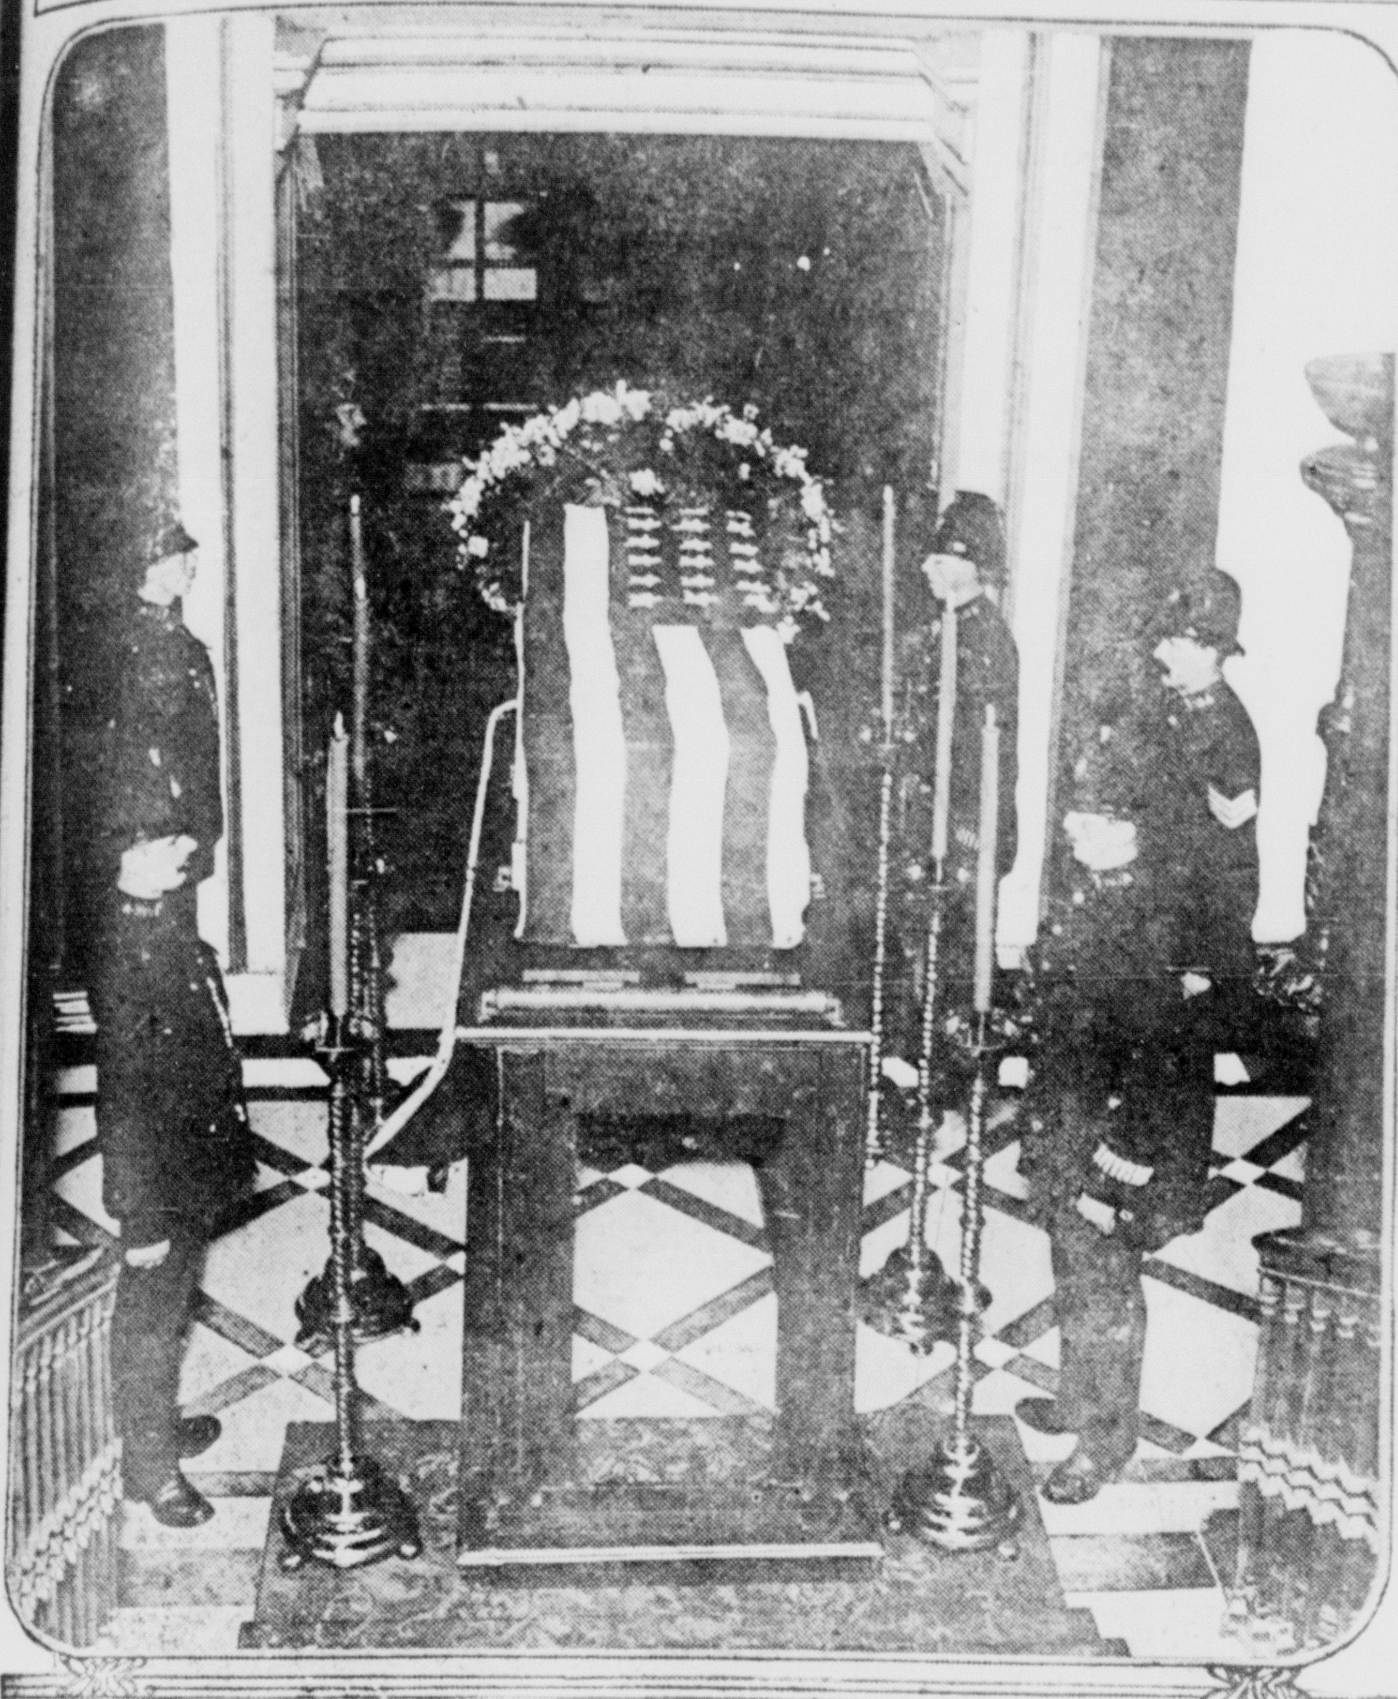

Photo by American Press Association.

England paid a signal honor to America's dead mayor, William J. Gaynor, upon the arrival of the body on the Baltic. The body was taken to the town hall at Liverpool, where it lay in state, as shown in this illustration. It was the first time such an honor had been paid to a dead official of an American city. New York's mayor died suddenly at sea while bound for England with his son, Rufus. After lying in state a day in Liverpool it was transferred to the Lusitania and brought to New York, where elaborate plans were made for a public funeral at old Trinity church Sept. 22, former President William H. Taft being one of the pallbearers.

DIAMOND KILLS GUARD IN TRENTON PRISON

Former Ohio Convict In Attempt-
ing to Escape Is Shot Twice.

Trenton, N. J., Sept. 22.—The usual quietness of the state prison was broken by a riot of shouts and pistol shots while the guard services were under way. A few moments later J. B. Stetson, a convict, suddenly fell mortally wounded, but not until he had effectively secured William Diamond, leader in one of the most desperate attacks on escape in the history of the institution. Stetson died three hours after Diamond's shot struck him in the chest. Diamond received a bullet wound in each arm, the shots being fired by Stetson after he had himself been shot. Diamond will recover and with James Johnson, a negro put who figured in the attempted escape, will face a charge of first degree murder.

Diamond served terms in the Cincinnati workhouse and Columbus penitentiary.

Revenue Cutter Narrowly Escapes Destruction in the North.

Washington, Sept. 22.—The revenue cutter Bear, moored to a menacing iceberg and completely wedged in by heavy floes of Arctic ice in a swirling current toward the North Pole, narrowly escaped destruction on her annual cruise from Nome to Point Barrow, Alaska. Secretary McAdoo made public a report from Captain J. Ballinger commanding the Bear. He recounts harrowing experiences of his vessel, unmanageable in a vice-like grip of the ice, trusting to favorable winds to reach a point of safety. In the grasp of the ice, the ship drifted helplessly with the current for a whole night and day at the rate of five or six knots an hour. She finally drifted boardside though between two heavily grounded bergs with only a few feet to spare at either end and was worked around into clear water and anchored to the eastward at the point.

Utility Valuations Increased. Columbus, O., Sept. 22.—Valuations of public utilities, exclusive of telegraph and telephone companies, have been increased for purposes of taxation 25 per cent during the last three years or since the work of appraisal has been done by the state tax commission. In 1910, when the last valuation of utilities was made under the old system, the total appraisement of these utilities was only \$235,573,886. The valuation for 1912, as fixed by the state commission, amounts to \$399,662,520, an increase of \$164,088,634.

Lima, O., Sept. 22.—Two Ohio Northern university students are held in the city prison and nearly 100 others escaped arrest by fleeing before the police arrived at a gathering here. Hundreds of students invaded Lima from the Ada normal college and proceeded to revel. After stoning through the business district and wrecking a number of saloons by hurling stones through the windows, the college boys split up into smaller bands and terrorized the residence district.

Two of the students, H. W. Hawk, 19, a sophomore, and Harry Kibbey, 18, a freshman, are in jail charged with assault. They are alleged to have thrown bricks at two barkeepers. Kibbey broke up the dance by charging upon the students, who had assembled in a body on the high school campus.

SOLD AND RESOLD WAVE OF CRIME CEMETERY LOTS ENGULFS BERLIN

CHARGE AGAINST SEXTON

Said to Have Unearthed Bodies and
Resold Burial Places.

Philadelphia, Sept. 22.—By removing bodies from graves and then reselling the burial places, William Lewis, the caretaker of a cemetery in Merion, is said to have made a comfortable living. Lewis was arrested upon complaint of the Ardmore authorities. For ghoulishness the detectives declare Lewis' scheme outshines any criminal plot they have ever unearthed.

Lewis had charge of the burial ground and sold all the lots. It is charged that he would sell a lot and immediately after the funeral service he would dig up the body which had just been buried and take it to an obscure part of the ground, where he would bury it along with others, which he had disinterred in the same way. Then, it is charged, Lewis would sell the more desirable lots over again.

EIGHT COMMIT SUICIDE

Fourteen Men Involved in Scandal
Which Horrified Berlin.

Berlin, Sept. 22.—Berlin is horrified over the disclosure of a scandal at Breslau which involves many prominent people. A certain house in Ohlau, a suburb of Breslau, has been used for a long time as a center of immorality. It was constantly visited by 12 school girls. One of the most deplorable features of the scandal is said to be that the parents of the girls not only winked at the immorality, but in some instances actually promoted the relations of the men with their daughters. After 14 men had been arrested for their connection with the scandal, eight others committed suicide. The latter included a military officer and a retired police lieutenant.

RECOVERING FROM AN UGLY INJURY

George Smith of near Edgely, is slowly recovering from a serious cut sustained a few days ago while operating a sled corn cutter on the Jesse Garringer farm.

The unfortunate man fell upon the razor-edge knife of the sled cutter, which inflicted a deep wound in the fleshy part of his leg, causing him to nearly bleed to death before Dr. Marchant of Milledgeville arrived.

As two arteries were severed by the keen blade of the cutter, Mr. Smith lost so much blood that it will be some time before he regains his former strength.

Alleged Chicken Thief Soaked. Bellefontaine, O., Sept. 22.—Ray Taylor, fined here last week by Juvenile Judge J. C. Hoyer for having assisted Blanche Doble, 16, to elope with Russell Miller of Santa Fe, O., was fined \$100 and costs and sentenced to 90 days in jail by Mayor Hay at Wapakoneta, on a charge of stealing chickens.

THIRD NUMBER OF THE WASHINGTON LECTURE COURSE

CHAPIN'S LINCOLN ALMOST PERFECT

Actor Portrays Patriot as He Appeared in Real Life.

In so brief an article it is impossible to tell much of the wonderful portrayal of Abraham Lincoln that Benjamin Chapin will give in our city. It is the one big original work of the past twenty-five years in the Lyceum. You will think you are hearing Lincoln's voice, seeing Lincoln himself. A famous critic has said of this miraculous production:

Mr. Chapin's Lincoln is worth exactly forty-five lectures on the subject, and most of the books; it is worth his best portrait—by whomever that may be—and three statues; it is worth all the fireworks of the Glorious Fourth, oratorical and otherwise, and most of the other machinery of so-called patriotism. It is, in fact, one of the most luminous lessons in the finer Americanism, as opposed to the common or jingo patriotism of the stage, that can well be conceived.

Should Be Subsidized.
Mr. Chapin should be subsidized by the government to produce it! To begin with, it would probably pay the cost of the Panama canal—the actor intending to play Lincoln for the rest of his life, and would incidentally in-

still into young America a quality and degree of patriotism attainable in no other fashion. I suggest it as the opening play of a real National theater.

You see Lincoln, the statesman, masterful, alert, humorous, and, above all, human. And in a climax that, with its inspiring acting, the word is hopelessly inadequate in its contemporary corruption reaches even majesty, you see Lincoln laying at the feet of Washington the flag he has ennobled. So powerful has the illusion become here that by the time this scene is reached, it is all but impossible to imagine that it is actually Actor Benjamin Chapin and not veritably that which it seems, the great patriot laying the symbol of liberty and brotherhood at the feet of the Father of his Country.

The actor's methods—just Michael Angelo's, for example, work, patience, reverence, with genius and a big ideal at the back of them. He has been studying his model for something like six years, chiseling away bit by bit, day by day, at the figure, learning first of consummate significance, this the way of Lincoln's thinking, and so, the Chapin Lincoln.

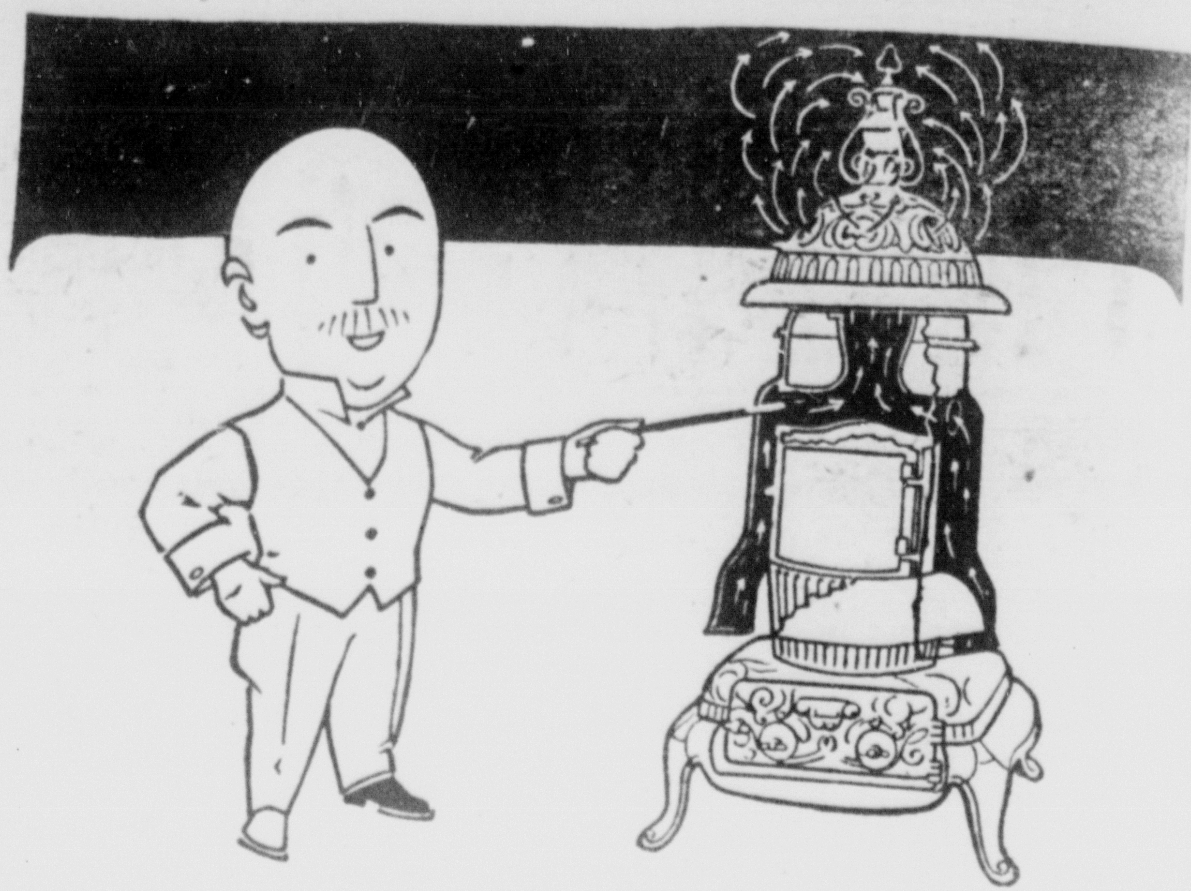

This truly wonderful impersonation of the Great Lincoln will appear at Grace church, Dec. 9th, the third number of the Washington Lecture Course.

Three Fatally Hurt in Auto Accident. Philadelphia, Sept. 22.—One man is dead and two others are dying as the result of a joy ride in a powerful automobile which was "borrowed" without permission from the owner. The big machine hit a steel post of the elevated railway structure, hurling all three occupants from their seats and completely demolishing the machine. Hickey, 19, who was driving, and a friend, Thomas White, were severely injured. The man killed was Bertam Price, who was picked up on the way by the party in the automobile.

Have you a "little furnace" in your stove?

YES!—if it's an Estate Hot Storm. Otherwise—no! For the wonderful little furnace is an exclusive and patented feature of the Estate Hot Storm's construction.

While the stove is working overtime, radiating its heat upward, and downward, and every which way, the little furnace inside is shooting an enormous volume of pure hot air into the room.

Hardly seems possible for a stove to do so much work as the

Estate Hot Storm

does—and to do it so nicely, without any smoke or gas getting into the room, without any puffing or exploding, without requiring any attention whatever except to put in some coal every day or two.

Make up your mind to "Own an Estate" this season, and make it an Estate Hot Storm—"the stove with a little furnace in it." See it here at our store.

GENERAL OTIS BLAMES UNION LABOR FOR NEW ATTEMPT ON HIS LIFE

GENERAL HARRISON GRAY OTIS.

Los Angeles, Cal., Sept. 22.—The attempt to assassinate General Harrison Gray Otis, proprietor of the Los Angeles Times, has caused an investigation that may unearth another big plot to kill the opponent of union labor. The general blames his union enemies. The bomb that was sent to the general contained very high powered dynamite, and the police at once started to trace it. The attempt recalled the destruction of the Times building by the McNamaras and the resultant widespread arrest and conviction of labor leaders.

the death of Mayor William J. Gay-
nor, was a close personal friend of
the man he succeeded. Though a Re-
publican, Mayor Kline announced he
would retain Gaynor's appointees. He
asked that the city cease business for
one hour during the funeral of Mr.
Gaynor, on September 22. The New
York Stock Exchange and other in-
stitutions decided to close. Mrs.
Kline, who is a friend of Mrs. Gay-
nor, the widow, seconded her hus-
band in this request.

Many Silver Fox Furs Are Also

fox.

The United States exercises a guard-
ianship over the northern group of
islands, in accordance with foreign
treaties, and to pay the cost of guard-
ing the seals from poachers the gov-
ernment is permitted to kill a certain
number of seals and foxes each
season for the skins. The steamer Homer
makes two trips a year to the islands
to take in supplies and bring out the
furs.

ALL PROFESSIONALS OF THE QUEEN CITY TOO MUCH FOR THE WASHINGTON BOYS

However the Visitors Were Held Down to a Two to One Score in a Decidedly Fast Game, Witnessed by 700 Enthusiasts Who Nearly Lost Their Teeth in the Borean Breezes.

Some seven hundred loyal fans—a very creditable crowd owing to the unseasonable weather, journeyed out to the local ball park yesterday to suffer from the Borean breezes and behold our boys go down to defeat on a two to one score at the hands of the fast bunch of All Professionals from Cincinnati.

Reno pitched a very creditable game, but errors by Jorgensen in the second and Corwin's error in the fifth allowed the visiting team to score a run in each of the two innings.

In the fifth inning Reno got out of a hole when the bases were full and with two outs "Wee Willie" Prout, the boy who used to knock so many home runs when he was on the Melvin team, came to bat. The best he could do with Reno's curves was to breeze the atmosphere three times, retiring the side. He looked as though Washington might tie things up in the ninth when Corwin, leading off, cut in with a three-bagger to left field. Noon hit a hot one to Barton who juggled it, Corwin scoring and Noon safe at first. Doyle then went out on a pop fly to Barton. Runnels was robbed of a hit by the fast fielding Decker, and Hedgecock drove one to right field, which Bartley made a fine catch of, retiring the side.

Next Sunday Washington will play the Dayton Shamrocks on the local field.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and when it is caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Ear, Nose and Throat Cure. Send for circulars, free.

"BIG ED" WALSH NOW IN THE OUTFIELD FOR CHICAGO

Photo by American Press Association.

"BIG ED" WALSH, once the star pitcher of the Chicago Americans, has shown up splendidly as an outfielder on the team and is now playing regularly back of the diamond. And Ed is batting well too.

Like Cy Seymour of old, Ed demonstrates that a pitcher can make good in another position when his artillery wing goes back on him.

Walsh was the most consistent winner the Chicago Americans had in recent years, and his loss from the twirling mound proved a severe handicap to the White Sox. "Lefty" Russell, however, has now proved worthy successor to the western giant.

"Big Ed" says he likes the outfield work and hopes to continue in it for many years.

M'LOUGHLIN ON PLAYING TENNIS

The International Champion Gives Valuable Advice.

ACCURACY IS IMPORTANT.

Held Racket Firmly and Do Not Try to "Paste" the Ball—Patience, Ambition and Headwork Are Necessary For a Successful Career on Courts.

By MAURICE E. M'LOUGHLIN, World's Greatest Tennis Player.

A beginner at tennis should remember that accuracy should always precede speed. Any one can "paste" the ball, but it takes long practice, splendid control, to place it within an inch of a certain line. To firmly hold your racket, to have it under your thumb, so to speak, is the first lesson to learn. It should never slip or wobble in your hand. The second lesson is to learn not to "slip" the ball, but to follow through with the racket every stroke that is made. Just as a jerky stroke in billiards spoils a shot, so a "non-follow" of the racket constitutes only half a stroke. The racket must be swung with a natural arm movement that ends easily and not with a jerk. At first it seems a trifle hard, but in the end it means much to a finished tennis player. Common sense, close application and a realization that one can always learn something new will help the beginner wonderfully.

To my mind there are three fundamental principles to be followed by the boy or man who seeks to shine at tennis. He must have patience, ambition and headwork. It may be said that this trio is necessary in every walk of life, in every effort to reach a goal. Well, I found that tennis differs from no other goal in any particular point. The first requisite, patience, is important, for tennis players of merit have had to bow to that for years, to make it an instinct, before they succeeded. Even after tennis has been mastered patience may be necessary

in important matches. For instance, many a set has been won by patiently waiting for some brilliant stroke of the opponent to pass off.

Ambition an Aid.

Ambition, the second requisite, is something that cannot be taught. It must be a natural trend. If allowed free play with his thoughts, is there a baseball fan who in his youth did not envy Wagner, Chance, Mathewson, Cobb or some other shining star of the game? When I first saw a real tennis player instinctively I picked out my game, my fun for the leisure hours. I little dreamed of ever playing at the headlined Newport Casino. That seemed miles and miles too far from California. But ambition had as much to do with it as anything else. There can be no limit to this point.

Headwork, the third requisite, is far more necessary in tennis than probably any other sport. Those who scoff at it, those who see only the knocking back of a little rubber ball, are misguided. Tennis calls for more headwork than is apparent even to many tennis players. The sharp eye, perfect footwork, finished stroke, will avail a player nothing if he doesn't use his head. One game may beat a famous star, but may utterly fail against a weaker player, and the use of headwork only will point out the necessity for a change of pace and methods. Without being egotistical, I believe the three named principles have taught me tennis.

Know Your Weakness.

There are, of course, any number of subqualities called for in perfecting a game of tennis. There is one in particular that almost ranks with the above principles, and that is a thorough realization of a known weakness. A famous tennis player once said, "I win because I play my weak spots." No sounder epigram was ever spoken for the ambitious tennis player. It means that easy victory is often less preferable than a constant practice of a weak stroke. To succeed at tennis there must be a desire to learn and overcome a weak part of a game. If you don't fight them off, your game will soon develop into a one-sided one. It will be replete with weak spots, habits hard to eradicate. A good player will willingly lose a game he knows he could win just to play or practice a weak spot of his game.

If there were no clouds we would not enjoy the sun—Old Saying.

FALKENBERG'S GREAT CURVE.

Baker of Athletics Says It's Best of All—Is Better Than Matty's.

"Fred Falkenberg, Cleveland's lanky pitcher, has a better fadeaway ball than Christy Mathewson. Left handed batters can hit Mathewson, but find it almost impossible to get even a single off Falkenberg."

Such is the declaration made by Frank Baker of the Philadelphia Athletics, home run hitter extraordinary and hero of the world's series of 1911. Baker made baseball history when he hit Mathewson for four bases in one of the games between the Athletics and Giants for the world's championship. He batted against Mathewson in three games of that memorable series. He has made the work of opposing pitchers a study.

"McInnis and I were talking about Falkenberg following his 2 to 0 victory over us," Baker continued. "Stuffy said he believed a right hander could hit Falkenberg easier than a left hander, and I believe he is right. To tell the truth, I would like to see how many hits a team composed entirely of left handed batters could make off Fred. I'll bet he would come mighty close to pitching a no hit game."

Ira Thomas, member of Connie Mack's famous strategy board, is another admirer of Falkenberg.

"I have not batted against Fred this year," says Thomas, "but from observation I would say Fred has the best fadeaway delivery ever pitched. Matty's fadeaway comes up to the batter rather slow. He works it as a change of pace. Falkenberg throws his fast ball and fadeaway with the same motion. The batter does not know which it is until he swings and misses. The fadeaway comes up much faster than Matty's fadeaway and for that reason is harder to hit. Fred is also the owner of more speed than Matty has now. I would rate Fred as one of the five best pitchers in the country."

HE BEAT GOODWIN.

Tomlinson Outswims the Prominent Eastern Champion.

Bud Goodwin, the star swimmer of the New York A. C., who has several aquatic championship titles attached to his name, met his Waterloo at the New York A. C.'s carnival of sports held at Travers Island, N. Y., when he was relieved of the A. A. U. 880 yard swimming championship. Gilbert Tomlinson of the Philadelphia Swimming club turned the trick, beating Goodwin by five yards in the time of 12 minutes 49.35 seconds, which fails to beat Goodwin's standing record of 12 minutes 42 seconds. Bud's time for the distance was 12 minutes 53 seconds.

Tomlinson took the lead at the start, touching the 220 yard mark two yards in the lead. His time at this point

GILBERT TOMLINSON.

was 3 minutes 6 seconds. At the quarter mile Tomlinson's time was 6 minutes 12 seconds, and he had gained five more yards. At the last turn with 110 more yards to go the Philadelphia lad was leading by ten yards, and the rest of the competitors were bunched closely. If Goodwin had figured on beating his man out on the final stretch he was sadly tricked, for, although he gained five yards and came within two yards of Tomlinson with twenty more to go, the effort of his vicious spurt fatigued him, and he was forced to let up, Tomlinson crossing the line with five yards to the good.

Wells Knocks Out Moir.

Bombardier Wells, heavy weight champion of England, retrieved his previous defeat at the hands of "Gunner" Jim Moir, the ex-champion, by knocking him out in the fifth round in a bout that took place in Canterbury music hall.

AN EXPOSITION

Worth Seeing a Display of Extraordinary Proportions—A County Fair Right on the Streets.

Yes, and it is all free too. No admission to pay. No bother about digging out your change to see the big show. It is free. The Chicago Farmers' Fall Festival is showing on a new scale, a county fair of the modern kind where the wealth of the farm and the field and garden, where the good things of the housewife's kitchen, her art in canning, in baking, in sewing, in fancy work, in candy making, in amateur photography and kindred arts which go to home making, are displayed without charge. The entrance fee to these displays for these grand prizes costs nothing but a postal card. The price of admission to the big festival is eliminated and adding to this they will be grand free acts every evening and afternoon, not one, but four or five.

The date of this great show is September 22 to 27, a whole week of it with big attractions every day. Old Fiddlers' contest Tuesday, the Governor opening it Monday night, horse parade Tuesday night, horse show Wednesday afternoon and evening, automobile parade Thursday, grand home coming Friday, with Better Babies show and a grand masquerade Saturday night. There will be dozens of interesting contests, and the least being that for the biggest family in Ross county.

Ross county invites all her friends and neighbors to come. Adjacent counties asked to enter the special horse classes for prizes.

See the elephant walk the rope every afternoon and evening.
